

100 % SATISFACTION GUARANTEED!

*A choice you'll be
comfortable with
...guaranteed!*

It just got easier. Look for the Bryant Factory Authorized Dealer logo that means Precision Heating and Cooling has met Bryant's strict standards for the quality of their products, expertise and service. And, it means their performance is backed by Bryant's

100%

satisfaction guarantee.

Whatever it takes...

Bryant's Factory Authorized Dealer initiative is a rigorous, standards-based national endorsement. Less than five percent of heating and cooling professionals in the country receive this distinction. Bryant has developed this comprehensive evaluation process because they recognize that how you ultimately feel - in your home and about Bryant brand equipment has a lot to do with the performance of us, Precision Heating and Cooling. Even if we recommend the best equipment, how well it performs and meets your needs depends heavily on our expertise in installing and servicing that equipment, and on how well we take care of you as a customer.

What does this mean to you? It means that Bryant has already done the legwork so you don't have to. Precision Heating and Cooling has already proven their commitment and performance in providing:

- Some of the quietest, most energy-efficient, environmentally-sound products from the world leader in home comfort technology and innovation.
- Precision Heating and Cooling installers and technicians are certified and have passed a comprehensive set of core and specialty exams to ensure their technical competency. In addition to being qualified to service other brands, they receive ongoing training specific to Bryant technology and products.
- Precision Heating and Cooling strictly adheres to Bryant installation and service procedures and uses genuine Bryant replacement parts whenever possible to ensure your system performs as promised.
- Precision Heating and Cooling sales estimators have attended Bryant Academy, a structured training program for learning how to better identify and recommend appropriate home comfort solutions.
- Precision Heating and Cooling is certified by the Environmental Protection Agency for proper refrigerant handling.
- Precision Heating and Cooling abides by a long list of sound business practices, such as maintaining all required local licenses, having appropriate insurance and liability coverage and fulfilling warranty obligations in a timely manner.

... and more.

We are so confident that you will be comfortable - not only with your Bryant heating and cooling products, but with us, your **Bryant Factory Authorized Dealer** - that together with Bryant, we are backing it up in writing with a 100% satisfaction guarantee.

If for any reason, you are dissatisfied with your Bryant equipment within one year of the installation date, Precision Heating and Cooling will correct the problem or remove the equipment and refund your purchase price. Ask for a copy of the guarantee for details and restrictions.

For comfort and value, there is a simple, risk-free solution that ensures Precision Heating and Cooling deliver as promised. Precision Heating and Cooling has already earned Bryant's approval, and will do *whatever it takes* to earn yours...guaranteed!
